### **New City Contracting**

Attention: Edward Buset

To Whom It May Concern:

I would like to take this opportunity to congratulate New City for a job well done. I would also like to thank your staff and project manager for the excellent work that was done. The Barclay Wood exterior painting project was no small task and the manner in which New City conducted themselves from the proposal stage to the finished product was the most professional I have seen to date from our many suppliers. Due to the scope and size of the project we had expected many disruptions and roadblocks during the work phase but thanks to the onsite project manager and quality of staff there was very few if any noticeable disruptions to any of the residents of Barclay Woods.

The appearance of Barclay Woods since the project has been completed has had a great influence on the resale value and the rate at which units are reselling and I can only contribute this to the painting project and the "new" look it has given our three buildings.

I would also like to thank New City for contributing the knowledge to make a few changes that help make the project look better and can only assume this knowledge came from years of experience that the strata council did not have.

I will without hesitation recommend you for any project regardless of the size as you made our large project look easy and will be more than happy to consider New City for all our upcoming projects. Thank you again for a job well done and the excellent workmanship you put into Barclay Woods.

Sincerely,

Robert Paige  
President
